

Accessing Live Lessons with Google Meet

Online lessons will occur during the same period as your normal lesson.

The online version of the lesson will last 40 minutes so will start 5 minutes later than your school-based lesson.

For example, if you are due to have a lesson at 9.25am, the live lesson will start at 9:30am.

From the Google Classroom homepage, select the class with which you will be having the live lesson

Meet

Join

Announce something to your class

Your teacher will the Google Meet link visible just before the beginning of the lesson

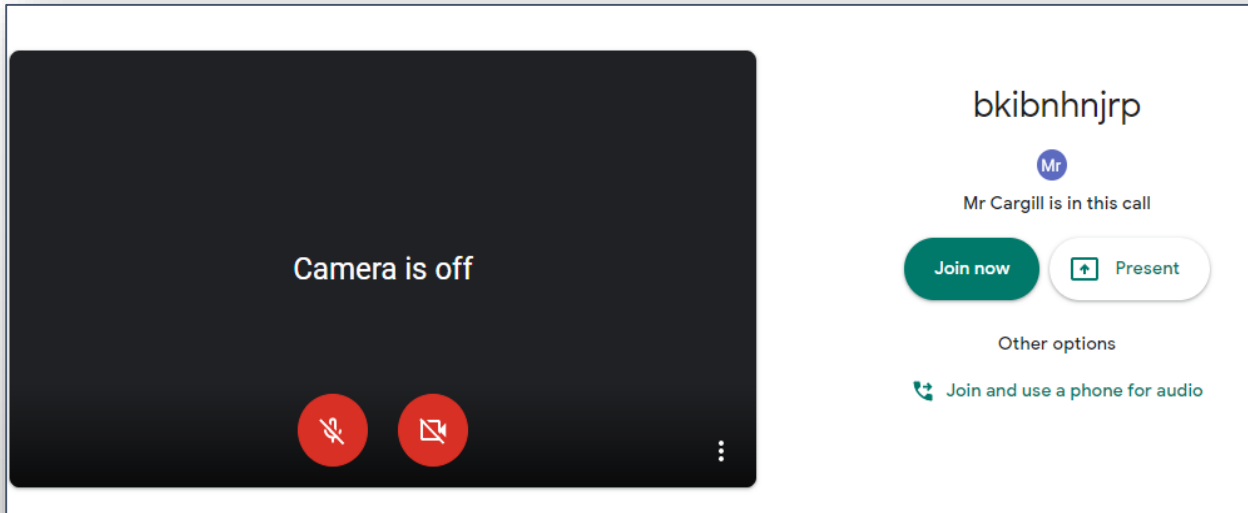

You can't create a meeting yourself.
Contact your system administrator for
more information.

If you're joining a meeting from Google Classroom, wait for your teacher to join and then refresh this page.

Reload

Return to home screen

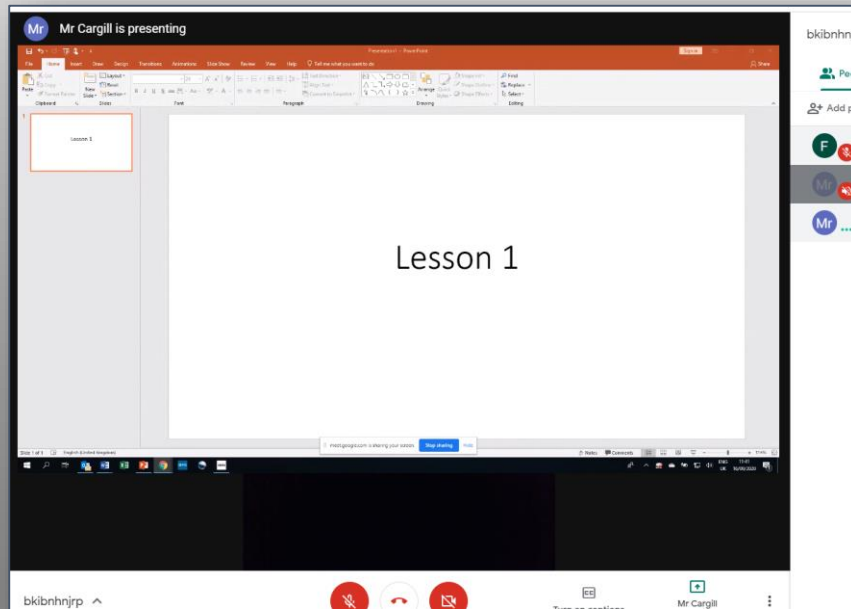

You can only join the meeting if the teacher is present, if not this message will appear

Once the teacher is present you will access the joining page

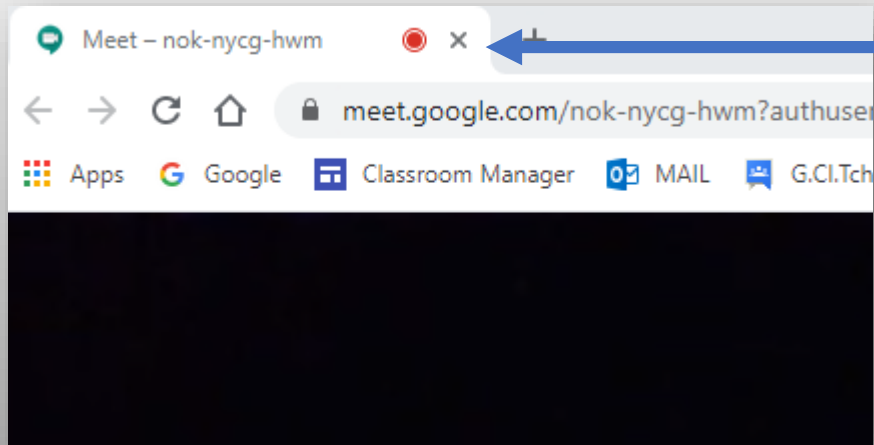

Please ensure your camera and microphone are **muted** (click on the two icons and ensure that they are **RED**).

Then press **Join Now** to access the lesson

The teacher will take the register and ask you to unmute yourself to say your name, then mute yourself.

The lesson will then proceed.

Once the lesson has ended you must leave the Meet

To do this simply close the Chrome tab at the top of your screen
