

Parents' Guide for Online Appointments with Teachers

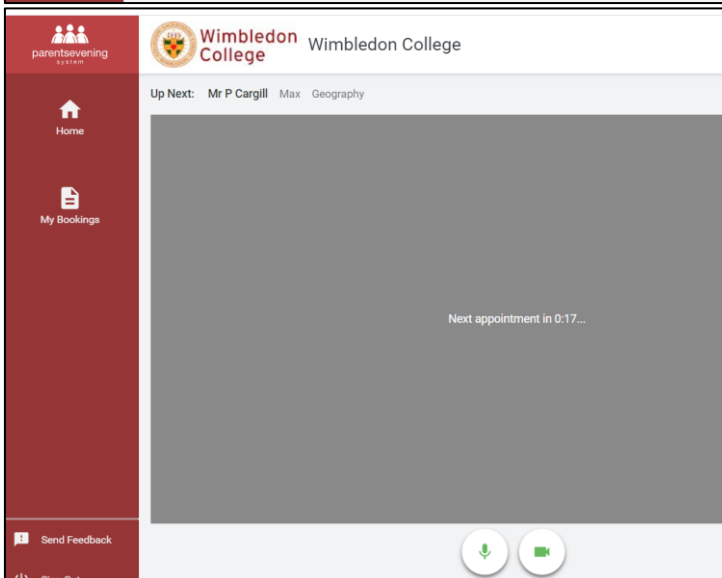

All online appointments for Parents' evenings are held via the SchoolCloud video call at <https://wimbledoncollege.schoolcloud.co.uk/>

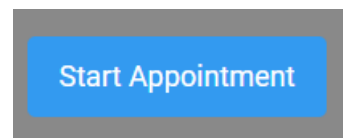

The login page will ask you to enter a login code (*this will be sent to you by email from the College*), the linked email address we have for you and your son's date of birth.

From the Homepage you can see the times of your appointments (**My Bookings**) and when you are ready to join the video appointment click the green button.

The preview screen will open up, if you join early a timer will show you how long left. When the appointment is due to start click the blue button to start the appointment

- The banner at the top of the screen will tell you who your current appointment is with, your next appointment and how much time is left for this appointment.
- **The appointment will automatically close down after 5 minutes and you will move on to next appointment.**
- The teacher may end the appointment before the end time, in which case you will move back to the Preview page to wait for your next appointment.
